**International
Network
Of Basin
Organizations**

Intervention de

Jean-François DONZIER

Directeur Général

Office International de l'Eau

Secrétaire Technique Permanent

Réseau International Organismes de Bassin

International
Office
For Water
PARIS-FRANCE

INBO General Objective: To Organized better IWRM at basin level!

International
Network
Of Basin
Organizations

International
Office
For Water
PARIS-FRANCE

**les bassins versants sont les territoires naturels,
où l'eau s'écoule,
en surface comme dans le sous-sol**

International
Network
Of Basin
Organizations

**une approche globale doit être organisée
à l'échelle pertinente
des bassins versants des fleuves, des lacs et des aquifères,**

International
Office
For Water
PARIS-FRANCE

International
Network
Of Basin
Organizations

**Indeed, basins are the natural territories,
in which water runs,
on the soil or in the sub-soil,
whatever are the national or administrative boundaries
or limits crossed.**

International
Office
For Water
PARIS-FRANCE

International
Network
Of Basin
Organizations

« **UPSTREAM-DOWNSTREAM** » **COMMON CAUSE**
ON THE SCALE OF BASINS AND SUB-BASINS

Sub-basin/Sector/
Water type
element of district to deal
with particular aspects

Heavily modified water
bodies (HMWB): human
activity carried out makes it
impossible to reach the goal
without disproportionate
costs (change activity...)

⇒ *no link with pollution*

**THE DIFFERENT
HYDROLOGICAL
SCALES:**

Water bodies
scale of evaluation
of the achievement
of good status

District =
river basins + associated
groundwaters and coastal waters

International
Office
For Water
PARIS-FRANCE

LES DIFFERENTES ECHELLES HYDROLOGIQUES

International
Network
Of Basin
Organizations

Sous-bassin/Secteur/
type de masse d'eau
élément du district où
peuvent être traités des
problèmes particuliers

Masses d'eau
échelle de l'évaluation
de la réalisation du
bon état

District hydrographique =
bassin versant
+ eaux souterraines et
côtières associées

Les Masses d'Eau
Fortement
Modifiées (MEFM):
les activités humaines
réalisées rendent impossible
l'atteinte de l'objectif sans
coûts disproportionnés
(changement d'activité...)
⇒ *lien avec la pollution*

**International
Office
For Water
PARIS-FRANCE**

water resources management should be organized:

**International
Network
Of Basin
Organizations**

- 1) on the scale of local, national or transboundary basins of rivers, lakes and aquifers;**
- 2) based on integrated information systems, allowing knowledge on resources and their uses, polluting pressures, ecosystems and their functioning, the follow-up of their evolutions and risk assessment.**
- 3) based on management plans or master plans that define the medium and long-term objectives to be achieved;**
- 4) through the development of Programs of Measures and multiyear priority investments;**
- 5) with the mobilization of specific financial resources, based on the « polluter-pays » principle and « user-pays » systems;**
- 6) with the participation in decision-making of the concerned Governmental Administrations and local Authorities, the representatives of different categories of users and associations for environmental protection or of public interest.**

**International
Office
For Water
PARIS-FRANCE**

La gestion des ressources en eau doit être organisée:

**International
Network
Of Basin
Organizations**

- 1) à l'échelle des bassins versants, locaux, nationaux ou transfrontaliers, des fleuves, des lacs et des aquifères,**
- 2) en s'appuyant sur des systèmes intégrés d'information, permettant de connaître les ressources et leurs usages, les pressions polluantes, les écosystèmes et leur fonctionnement, d'identifier les risques et de suivre les évolutions.**
- 3) sur la base de plans de gestion, ou schémas directeurs, fixant les objectifs à atteindre à moyen et long terme,**
- 4) par la réalisation de programmes de mesures et d'investissements prioritaires pluriannuels successifs,**
- 5) en mobilisant des financements spécifiques, sur la base de l'application du principe " pollueur-payeur " et de systèmes " utilisateur-payeur ",**
- 6) avec une participation à la prise des décisions, des administrations gouvernementales compétentes, des autorités territoriales concernées, des représentants des différentes catégories d'usagers et associations de protection de la nature ou porteuses d'intérêts collectifs.**

**International
Office
For Water
PARIS-FRANCE**

TWO HUNDRED AND SIXTY THREE RIVERS OR LAKES AND HUNDREDS OF AQUIFERS ARE TRANSBOUNDARY ONES

**International
Network
Of Basin
Organizations**

Il existe dans le monde 263 fleuves ou lacs et plusieurs centaines d'aquifères, dont les bassins sont partagés entre au moins deux pays riverains ou parfois beaucoup plus (18).

International Network of Basin Organisations, MEMBERS:

International
Network
Of Basin
Organizations

- **“Basin Organizations”**, entrusted by relevant public administrations with integrated water resources management at the level of important river basins, either national, federal or transboundary, as well as the cooperation structures they have developed among them.
- **the governmental administrations in charge** or interested in applying integrated and sustainable water resources management:
 - organized at the level of river basins,
 - associating administrations and local authorities, as well as users,
 - having specific budgetary resources at their disposal, obtained by applying the “user-polluter-pays” principle.
- **bi and multilateral co-operation agencies** supporting activities related to integrated and sustainable water resources management at the level of river basins.

LES MEMBRES DU RÉSEAU

International
Network
Of Basin
Organizations

- **les "Organismes de Bassin",** ainsi que les structures de coopération qu'ils ont pu développer entre eux.

- **les administrations gouvernementales chargées de l'eau** dans chacun des pays appliquant, ou ayant déclaré vouloir appliquer, une gestion globale et durable des ressources en eau :
 - organisée par bassins hydrographiques,
 - associant les administrations, les Pouvoirs locaux, ainsi que les usagers des différents secteurs,
 - disposant de ressources budgétaires spécifiques obtenues par l'application du principe "utilisateurs-pollueurs-payeurs".

- **les organisations de coopération bi ou multilatérale** soutenant des actions de gestion globale et durable des ressources en eau au niveau des bassins hydrographiques.

- **Des observateurs permanents.**

LES OBJECTIFS DU RÉSEAU

**International
Network
Of Basin
Organizations**

- développer des relations permanentes entre les organismes intéressés par une gestion globale des ressources en eau par grands bassins hydrographiques et favoriser entre eux des échanges d'expériences et d'expertises; les Jumelages,**
- promouvoir dans les programmes de coopération les principes et moyens d'une gestion rationnelle de l'eau pour un développement durable;**
- faciliter l'élaboration d'outils de gestion institutionnelle et financière, de programmation, d'organisation des banques de données, de modèles adaptés aux besoins;**
- soutenir des programmes d'information et de formation des élus locaux, des représentants des usagers et des différents acteurs de la gestion de l'eau ainsi que des dirigeants et des personnels des organisations de bassin membres;**
- encourager l'éducation des populations et notamment des jeunes;**
- évaluer les actions engagées et en diffuser les résultats.**

International
Office
For Water
PARIS-FRANCE

International Network of Basin Organisations, OBJECTIVES:

International
Network
Of Basin
Organizations

- to develop relations between organizations interested in comprehensive water resource management at the river basin level,
- to favor exchanges of experiences and expertise among them,
- to promote the principles and means of sound water management in cooperation programs,
- to facilitate the implementation of tools suitable for institutional and financial management, programming, organization of data banks, and for models adapted to the needs,
- to promote information and training programs for the different stakeholders involved in water management as well as for the executives and staff of the member basin organizations,
- to evaluate ongoing actions and disseminate their results.

LE PLAN D'ACTION DU RIOB

"CREATION ET RENFORCEMENT DES ORGANISMES DE BASSIN DANS LE MONDE"

LES QUATRE PRINCIPAUX RESULTATS ATTENDUS:

- Une coopération directe entre les organismes de bassin existants et les organismes de bassin futurs ou pilotes : les jumelages;
- Un appui professionnel du personnel des organismes de bassin existants,, afin de faciliter le débat sur les choix de gestion par bassin versant, là ou le besoin s'en fait sentir: les projets pilotes;
- Une synthèse des expériences, des connaissances et du savoir-faire, diffusée sous forme de guides des meilleures pratiques, de directives et de modules de formation;
- La mise en réseau des systèmes d'information et de documentation sur l'eau, pour échanger et accéder aux informations institutionnelles; juridiques, économiques et techniques aux niveaux national et international.

**International
Network
Of Basin
Organizations**

Bringing together National and Regional research programmes to develop joint activities

- ▶ Exchanges of experiences and good practice
- ▶ Research needs assessment on Integrated Water Resources Management brought on by the WFD
- ▶ Common strategic orientations
- ▶ Joint dissemination approaches

Common forum and platform for knowledge transfer

- ▶ To facilitate communication between researchers, water policy makers, research programme managers and water managers
- ▶ To create new RTD/policy interfaces

A network based on an interdisciplinary approach

- ▶ Encompassing social sciences, economics, technical and ecological fields
- ▶ To be extended to other research programme from all member states and neighbouring countries

Towards future transnational and transregional research programmes

De nombreuses questions se posent !

International
Network
Of Basin
Organizations

Directive Cadre:
un bon état
des eaux
dans l'Union
d'ici 2015

Comment définir
la 'bonne' qualité écologique

?

Comment définir
le fonctionnement
'durable'
des écosystèmes
aquatiques

?

Comment réaliser
les objectifs environnementaux
et assurer une mise en application
cohérente dans l'Union

?

... Et comment assurer la
compatibilité de la
classification
de l'état écologique
et du monitoring
dans l'Union

?

**International
Office
For Water
PARIS-FRANCE**

**Framework
Directive:
good status
for waters
in the Union
before 2015**

**How to achieve
the environmental objectives
and ensure a consistent
implementation
in the Union**

?

**How to define
'good' ecological
quality**

?

**How to define
the 'sustainable'
functioning
of the aquatic
ecosystems**

?

**... And how to ensure
comparability
in the classification
of ecological status
and of monitoring
in the Union**

?

**International
Network
Of Basin
Organizations**

Many questions indeed arise!
