Consultation survey

- Resume headlines of WFD program ;
- Describe the French water management organisation based on river basin ;
- Expose the basin characterisation document ;
- Suggest main issues for 2015 and major action plans.

Four majors issues for 2015

- Protect health and environment ;
- anticipate crisis situations : floods and droughts ;
- improve a fair and equilibrate financing between all water users;
- reinforce, develop and sustain local management policies .

Consultation process

- Begin now, on sept. 2004, with local authorities consultation (department, region, county councils) ;
- follow in 2005 with wide public consultation (six months) ;
- government (prefet) is the legal authority ;
- Basin committee and water agency are manager and operator.

Purpose of consultation

- **WFD work program and schedule ;**
- **provisionnal summary of main issues.**
